10East Corp. is a SaaS and BPO (Software as a Service and Business Process Outsourcing) Provider of Business Management Solutions to the North American Railroad Industry.

Jacksonville, FL - Thursday, September 20, 2007 - Today 10East Corp. announced that Canadian Pacific Railway Limited (CP) has selected the RailDOCS Mobile Business Platform in support of preventative maintenance and government compliance logistics for the signal department. This long term commitment to system-wide deployment expands on the successful US pilot conducted over the last year.

“We are excited to have Canadian Pacific as our latest Class One customer, and to support our commitment to CP we have a team of software engineers working on system changes that will address the variances between US and Canadian governmental requirements. We have committed to have that work completed in time to enable CP to begin their Canadian roll out prior to the end of this calendar year” says Mike Wilson, President, 10East Corp.

Peter Arato, Canadian Pacific's General Manager Signals and Communications said, “We anticipate a smooth roll out due to the experience 10East has gained from deploying the same platform on other Class One railways.”

10East Corp. is a SaaS/BPO (Software as a Service / Business Process Outsourcing) Provider of Business Management Solutions to the North American Railroad Industry. 10East's flagship service, RailDOCS™ (Railway Daily Operations Control System), has been enabling world class business management in the rail sector since 1996. RailDOCS™ provides companies with tools that enable the efficient management of business intelligence, business processes, personnel, projects, and tasks, while lowering capital and operating costs. RailDOCS™ is extensible to the mobile worker through the RailDOCS™ Mobile Business Platform, driving mobile business processes, the collection and dissemination of information, and communication with the front-line mobile employees, while also managing every aspect of the mobile applications, communications, hardware, and users. 10East customers include the rail giants BNSF Railway, Canadian Pacific Railway, CSX Transportation, Norfolk Southern Railway, Union Pacific Railroad, and a number of other railroads and rail transport oriented companies.

Canadian Pacific, through the ingenuity of its employees located across Canada and in the United States, remains committed to being the safest, most fluid railway in North America. Our people are the key to delivering innovative transportation solutions to our customers and to ensuring the safe operation of our trains through the more than 900 communities where we operate. Our combined ingenuity makes CP a better place to work, rail a better way to ship, and North America a better place to live. Come and visit us at www.cpr.ca to see how we can put our ingenuity to work for you. Canadian Pacific is proud to be the official rail freight services provider for the Vancouver 2010 Olympic and Paralympic Winter Games.
